

## Pickup Rules for Large Waste Items

There are certain items the waste hauler **will not** pick up. Those items are automotive parts, blocks of concrete, rocks, earth, and hazardous materials. Yard waste will continue to be picked up on your normal collection day by the contracted hauler, until further notice. Yard waste must be bundled and tied in manageable size bundles, not to exceed 30 to 40 pounds and 3 to 4 feet in length. **NOTE:** Our Service Department does have a chipper for any large amount of branches, twigs, etc. You must request this through the Service Department, and there is a fee for this service.

Generally, the hauler picks up large items such as furniture, carpeting and appliances on your regular collection day. However, it is wise to contact the city's contracted rubbish hauler, **Waste Management, at 1-866-797-9018** to inquire as to size of object, dates and any special instructions required. Carpeting will need to be cut in 4' sections, rolled and bundled.

At this time, there is no fee to pick up appliances such as refrigerators, freezers, stoves, washers or dryers, etc. You must call the Service Department at 216-731-7014 to schedule this service.
